Valorisation of New Opportunities by Collaboration

A question for the network...

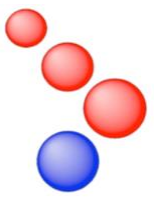

Network meeting is dedicated to “Dare to ask”

SMB, an initiative of Radboudumc, encourages economic activity by connecting entrepreneurs and researchers.

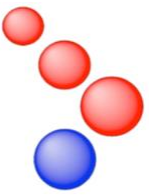

How can we directly interact with related companies/partners/RUMC-departments within the SMB, NTC, and Kadans networks about project opportunities, availability of equipment, capacity, and/or knowledge?

The Golden Egg

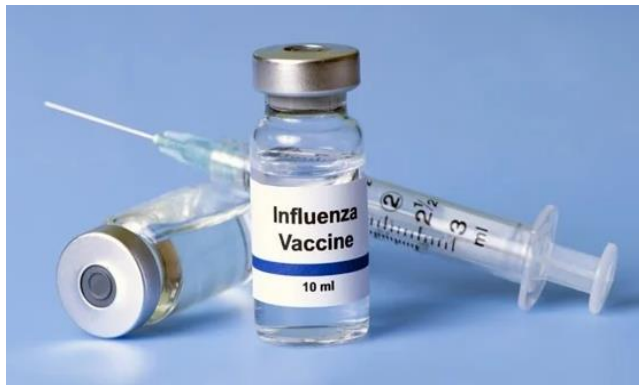

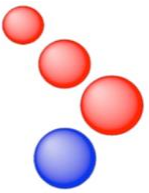

Purivise in Real Life (Sciences)

We combine experiences and technologies from:

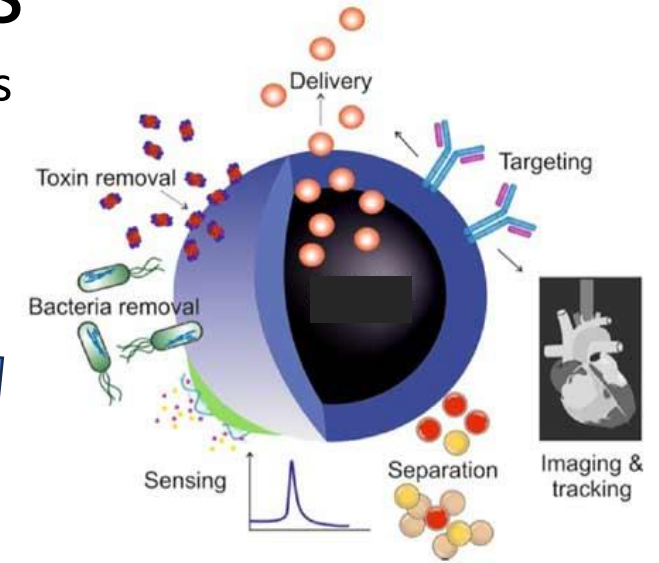

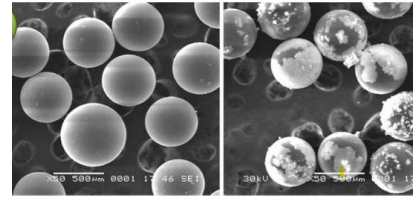

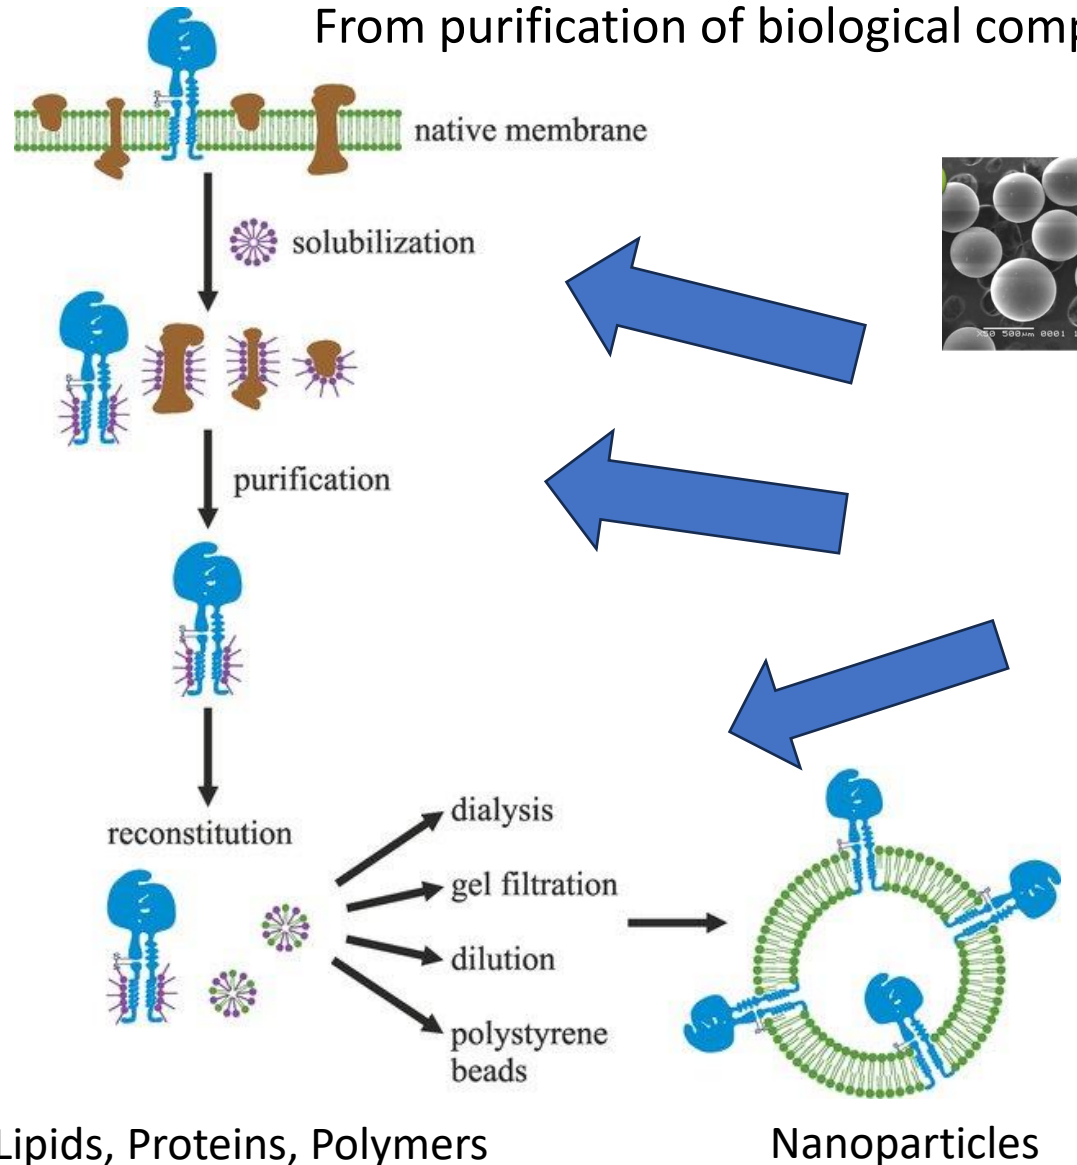

- ✓ Chemistry
- ✓ Purification of biological products and ingredients
- ✓ Nanotechnology

Project Examples Mechanisms

From purification of biological components to nanoparticles

We offer:

- ✓ A smart, efficient and practical approach
- ✓ Lab-scale In-house experiments
- ✓ Scale up of new technology
- ✓ Implementation in (cGMP-) production facilities

Valorisation of New Opportunities by Collaboration

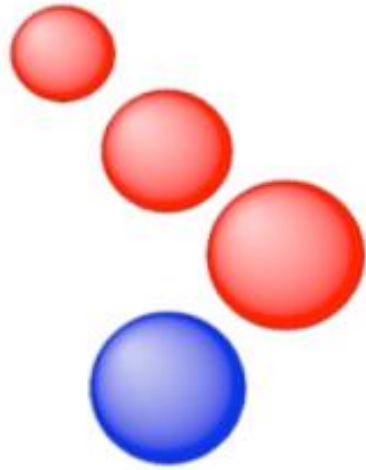

A question for the network...

How can we directly interact with related companies/partners/RUMC-departments within the SMB, NTC, and Kadans networks about project opportunities, availability of equipment, capacity, and/or knowledge?
